CONSTRUCTION	100% VACUUM-BAGGED HAND LAY-UP		
ENGINE CONFIGURATIONS	TWIN INBOARD WITH DRY SUMP #6 DRIVES, STAND-OFF BOXES WITH BRAVO DRIVES		

36 RACE PLEASURE:

Own the fastest boat in the world. A Skater 36, Nauti-Marine, set the record as the world's fastest open cockpit powerboat, topping 180 mph. The boat also shows its amazing efficiency, topping 100 mph on a pair of stock Mercury Racing 525 EFIs. No matter how fast you go, the Skater 36 Race Pleasure is built tough, with vacuum-bagged epoxy resins, S-glass and balsa coring throughout. The 260 gallon fuel capacity means you've got plenty of fuel for a weekend of fun. Six full cross bulkheads and five longitudinals provide structural support and the hull and deck are bonded around the entire perimeter. Five passengers travel in style in high-backed bucket seats and you and a buddy can run race-style in the local poker run thank to the control quadrants between the front seats.

ENGINE CONFIGURATIONS

- (2x) 850 H.P. Engines with #6 drives
- (2x) 1075 H.P. Engines with #6 drives
- (2x) 1100 H.P. Engines with #6 drives
- (2x) 1300 H.P. Engines with #6 drives

ESTIMATED SPEEDS*

- 125-130 MPH +
- 150 MPH +
- 160 MPH +
- 180 MPH +

*Speeds are only estimates. Your performance may vary due to water conditions, fuel and passenger load and other factors. Custom modifications can be accomplished for an additional charge.
