40 CLASSIC LOW PROFILE:

As sleek and sexy as a Ferrari, the Skater Low Profile Classic has performance to back up its swept-back appearance, boasting speeds exceeding 170 with a pair of 1,300 H.P. supercharged engines under the hatches. Back off to about 120 and you'll be amazed at how docile this boat is. Those sexy looks are executed in a flawlessly finished hull and deck that are bonded with fiberglass around the entire perimeter and laid up with vacuum-bagged epoxy resins, S-glass, Kevlar, carbon composite and balsa coring throughout. Extra-stout stringers support the engines. To ensure that you and your passengers are comfortable, the 40 Low Profile Classic comes standard with quarter aircraft canopies and five high-backed bucket seats.

ENGINE CONFIGURATIONS

- (2x) 1075 H.P. Engines with #6 drives
